

JL V&TI METAL

ALLOYS

FST400
YB/T 6085-2023

Application

FST400 iron is used as master alloy for the production of titanium alloys

Quality Material

a)visual inspection

Size

powder

Packaging

In sealed steel drums

Chemical Analysis in wt%

Fe	≥98.5
C	≤0.03
Si	≤0.050
