

JL V&TI METAL

ALLOYS

NbAl70
YS/T 1567-2022

Application

NbAl70 is used as master alloy for the production of titanium alloys

Production method

metallothermic reduction

Quality Material

- a)visual inspection
- b)magnetically separated

Size

≤3 mm or on request

Packaging

In sealed steel drums

Chemical Analysis in wt%

Nb	68.00 - 78.00
Fe	≤0.25
Si	≤0.20
C	≤0.10
N	≤0.05
O	≤0.10
Ta	≤0.30
Al	Balance
